

Beaver Creek ACC Form - Entry #69

Name
Laura Thomas
Phone
+18165201516
Mailing Address
589 Cardinal Rd Caldwell, TX 77836 US
Email
beachcomber1991@yahoo.com
Lot Number
576 A & B, 575 A
Septic System
New Septic System
Installer
Frank's Septics
Date of installation
07/08/2020
Remarks
We had an old copy of the Property Improvement Request Form, and we inferred from it that we were good as long as we got the proper permits from the county. We did not realize that we needed to fill the form out before putting our septic and water well in.
Existing Septic
Existing Septic System
Permit Number
2020087
Existing Well

Existing Well
New Well New well
Well Driller Siegert Water Wells, Inc.
Estimated Date of Completion 05/31/2020
Remarks Just as with the septic, we had an old copy of the improvement request form. We understood it to mean that as long as we got the proper permits from the county, we were ok.
Shop, Barn, or Outbuilding Shop, Barn, or Outbuilding
Shop, Barn, or Outbuilding Remarks We already brought in a metal storage container, not realizing that we needed permission first. This one was our fault as we didn't read the rules thoroughly. We brought it in to store our personal belongings that we were paying to have in a storage unit at one of those self-storage places. We are planning to turn it into a workshop when we no longer need it for storage. The picture is from the web. Ours looks just like this except that it is blue. We are planning to paint it so it'll look brand new
Upload front and back images of the shop, barn, or outbuilding you plan to add  40FT-Dry-Cargo-Container.jpg
Closing Remarks We apologize for not getting permission from you prior to putting these items in. It was not intentional to ignore your rules. The water and septic were our misunderstanding and the storage container was our not reading thoroughly.
